The screenshot shows the 'Avignon 2030' platform interface. At the top, there's a navigation bar with links for 'Dernières idées', 'Derniers commentaires', 'Les plus débattues', 'Les plus appréciées', 'Mes idées', and a search bar. Below the bar, a sidebar lists categories: 'Urbanisme et Habitat', 'Attractivité, économie et commerce', 'Mobilités et déplacements', 'Espaces verts et environnement', and 'Culture, loisirs, services'. The main area features a satellite map of Avignon with numbered callouts (1-15) pointing to specific locations. A modal window for idea number 14 is open, titled 'réaménager le parc de l'abbaye'. It contains an 'Informations' tab with a photo of a park and a detailed description: 'Réaménager le parc de l'Abbaye qui pourrait être très beau mais est très dégradé. Créer un cheminement piéton traversant le parc et permettant de se rendre à la piscine Folard'. The 'Commentaires' tab shows '(0)' comments. Below the modal, a voting section shows '12' likes and '0' dislikes. The bottom right of the map area has social sharing icons for Facebook, Twitter, and Google+.

Harbour Passage is an incredible asset,
bringing it all the way around the peninsula
and up to Rockwood Park would make it even
better

Could be better

It would also be great if the linkage
between the Harbour Passage and the
Reversing Falls were improved. I realize
that this is technically outside the scope
of this action plan (as well as requiring...

This project stage has finished. View other Newcastle Commonplaces.

What is this place?
Footpaths across Nuns Moor

What are the issues?
Both paths between Walter Terrace and Barrack Road are full of potholes, and badly need resurfacing. They are not safe for people with sight or mobility problems.

How easy is it to get around this place now?
From what point of view are you making this comment?
Pedestrian

How could it be improved?
Improved public spaces Better pavements

GALOPPENS PARKERING (GALOPPISEN)
Kvinnerna 20-29 år.
Ella park, 29 december 2015 00:41

JAG ÄR
Boende i Täby, Företagare i Täby

VAD GILLAR DU MED PLATSEN?
Kultur och nöje, Butiker och shopping, Mötesplats och folkliv

BERÄTTA MER OM VARFÖR DU TYCKER OM PLATSEN...
Galoppis är det bästa i Täby, här möts gamla och unga och folk från olika kommuner. Det är loppis som verkligen har växt och som jag vill gå till varje helg.

BERÄTTA VAD SOM ÄR VIKTIGAST ATT TÄNKA PÅ OM CENTRALA TÄBY SKA VÄXA...
Att Galoppisen är kvar.

MinStad application, Gothenburg

facebook.com/minstadgbg [Like](#) [Share](#) 164 @MinStad [Tweet](#) [Log in](#) LINDHOLMEN 2016

Lindholmen
Lindholmen kommer att förvandlas till ett grönt och tätbebyggt blandstads distrikt med kontor, förskolor, detaljhandel och service, samt kulturupplevelser och bostäder för männskor i alla åldrar. Det är också den förestagna platsen för vad som kommer att bli den högsta byggnaden i Skandinavien, Karlatornet, som förväntas nå en höjd av 266 meter. En utsiktsplattform på en av de övre våningarna kommer att tillåta invånarna och besökare att se Göteborg ur ett nytt perspektiv. Detaljplanen för Karlavagnsplatsen inkluderar 1.600 lägenheter i åtta kvarter. Bortsett från det lågonfallande Karlatornet, inkluderar planen två andra byggnader, som båda är högre än Gothia Towers, som för närvarande de högsta byggnaderna i Göteborg. Dessutom främjas stadslivet genom aktiva bottenvåningar i alla kvarter.

Lindholmen
The Lindholmen area will be transformed into a green, densely built, mixed-use district with offices, preschools, retail facilities and service amenities, as well as cultural experiences and housing for people of all ages. It is also the proposed site for what will be the tallest building in Scandinavia, Karlatornet, which is expected to reach a height of 266 metres. A viewing platform on one of the upper floors will allow residents and visitors to see Gothenburg from a new perspective. The detailed plans for Karlavagnsplatsen include 1,600 apartments in eight blocks. Apart from the imposing Karlatornet, the plans include two other buildings, both of which would be higher than Gothia Towers, which are currently the tallest buildings in Gothenburg. The ground floor of each of the buildings will be assigned to retailing and other non-residential activities.

The results of the Helsinki 2050 map survey

uomeksi

With this tool, you can review the material of the city plan map survey. The material available to you includes responses from approximately 4,700 city residents and 33,000 locations indicated on the map. The survey was open 4 November–9 December 2013 and it was executed by Mapita Inc. The survey collected the views of city residents for the preparation of Helsinki's new city plan. Read more at [www.yleiskaava.fi](http://yleiskaava.fi).

- A place or area for residential building
- A street side that could be built up
- A plaza or square that is too large, whose surroundings could be built up
- The area is not necessary for recreation, it could be built up
- A place for offices, services or business premises
- There should be more shops and services here on the street-level floors of the buildings
- Recreationally important, but could be of better quality
- This area is unique city nature just as it is
- The environment around here looks dreary and should be improved by planting trees, for example
- A poorly managed / undefined area that should be improved
- My completely new idea
- There should be a pedestrian street here
- Public transport connection
- Cycling connection
- Walking connection
- Car transport connection

Results of online mapping survey for
Helsinki 2050 Masterplan

Final Thoughts

You have reached the end of this survey. All of your responses have been saved in progress. From this page you can edit your responses (you can click on pins you placed to edit or delete them) as well as see and comment on points that others have placed (shown as circles). To see the map click on "Hide questions" at the top of the page. To add new pins for yourself, please go back using the "previous" button.

When you are done, click "done" to continue to the project website.

Thank you for your time. Your feedback is important to developing the Minneapolis Downtown Parks Plan.

Please provide any additional information about what you would like to see for the future of downtown Minneapolis.

Please share this tool with your friends, coworkers, neighbors and anyone else who is interested in downtown Minneapolis. You can use the buttons below or share the following link: <http://bit.ly/pathwaystoplaces>
